

SOWMIYA M

Chennai | +91 6374630969 | sowmiyam2102@gmail.com | [LinkedIn](#) | [GitHub](#)

Full-stack and data-driven professional with hands-on experience in Java, Spring Boot, React JS, SQL, REST API development, machine learning, and data engineering. Proficient in building database-driven applications, integrating APIs, and developing analytical solutions across banking, retail, and HR domains. Strong foundation in Object-Oriented Programming and software development, with experience working with MySQL, PostgreSQL, and Git. Passionate about building scalable applications and solving real-world business problems using modern technologies.

INTERNSHIP EXPERIENCE

Bilight Solutions (On-Site)

Chennai

Student Intern

Feb 2025 – Apr 2026

- Processed and transformed large-scale datasets using Excel, MySQL, Tableau Prep, and Power Query, applying ETL techniques to support analytics workflows across HR, retail, and banking domains.
- Developed interactive dashboards using Power BI and Tableau, enabling clear visualization of business insights and improving reporting efficiency.
- Performed EDA on 1,000+ HR records and designed data models and KPIs to support banking performance analysis and digital adoption across 50+ banks.

PROJECTS

AI-Powered Water Quality Monitoring System ([Link](#))

Tech Stack: Java, Spring Boot, React JS, Flask, MySQL, REST APIs, Postman, TensorFlow

- Developed a full-stack web application for water quality monitoring and prediction using React JS, Spring Boot, Flask, and MySQL.
- Built and integrated RESTful APIs to enable communication between the frontend, backend, database, and machine learning services.
- Developed a React-based dashboard for visualizing prediction results and achieved approximately 80% prediction accuracy on 10,000+ water quality records.

Crypto Data Pipeline and Power BI Dashboard ([Link](#))

Tech Stack: Python, PostgreSQL, Docker, Apache Airflow, Power BI, Git

- Designed and developed an end-to-end Bronze–Silver–Gold data pipeline using PostgreSQL, Docker, and Apache Airflow.
- Automated data ingestion, validation, and feature engineering workflows to ensure reliable and scalable processing.
- Developed a machine learning price prediction workflow and visualized actual vs. predicted trends through Power BI dashboards.

Banking Systems and Performance Analysis Dashboard ([Link](#))

Tech Stack: Tableau, Tableau Prep, SQL, Excel

- Analyzed 40+ RBI datasets (2020–2025) covering transactions and infrastructure across 50+ banks, building 5 interactive Tableau dashboards with YoY growth, LOD expressions, and dynamic parameters.
- Designed an ETL pipeline to process large unstructured data, delivering insights on digital adoption, channel performance, and bank benchmarking.

SKILLS

Development Exposure: Object-Oriented Programming (OOP), SDLC Basics, React JS, JavaScript, HTML, CSS, Spring Boot, REST APIs, Flask, MySQL, PostgreSQL

Programming & Data: Java, SQL, Python (Pandas, Scikit-learn, Matplotlib, NLTK)

ML & Analytics: Predictive Modeling, EDA, Model Evaluation, TF-IDF Vectorization, NLP

Data Engineering: ETL Pipelines, Data Modeling, KPI Design, Apache Airflow, Docker

BI & Visualization: Power BI, Tableau, Looker, Tableau Prep, Excel (Power Pivot, Power Query)

Tools: Git, GitHub, Postman, VS Code, Figma

Soft Skills: Communication, Team Collaboration, Adaptability, Analytical Thinking

CERTIFICATIONS

- Certified Generative AI Professional – Oracle
- DBMS – NPTEL
- Java & Full Stack – InLustro
- UI/UX Design – TVS Training
- CRM – Honeywell ICT Academy

EDUCATION

Dwaraka Doss Goverdhan Doss Vaishnav College

Chennai

Master of Computer Application | Percentage: 89%

2024 - 2026

Chevalier T. Thomas Elizabeth College for Women

Chennai

B.Sc. Computer Science | Percentage: 85%

2021 - 2024

ACHIEVEMENTS

- Achieved 3rd Place at InLustro (2025) for presenting an AI-Powered Water Quality Monitoring System, effectively communicating the project's design, functionality, and real-world impact to evaluators.
- Awarded Best Social Media Coordinator for handling photography, video editing, and content creation for official college social media platforms.
